To Tracey Nguyen
Company Dickson Testing
Address 11126 Palmer Street
South Gate, California 90280

MDHI Vendor Code 8700

CC Olivier Desplanques
Subject Dickson Testing - Approved MDHI Processes

Tracey,

Listed below are the MDHI Processes that the Dickson Testing facility is currently approved to perform

The South Gate California location has following approvals:

<i>Process</i>	<i>Status / Limitations</i>
MDP1-1 – Heat Treat of Steels	Approved / Test Samples Only
MDP1-2 – Heat Treat of Aluminum Alloys	Approved / Test Samples Only
MDP6-16 – Control and Inspection of Aluminum Alloy Forgings	Approved / None
MDP6-25 – Procedures for Determining the Mechanical and Chemical Properties of Metallic Materials	Approved / None

Approvals based on 3rd party and Nadcap approvals require immediate notification of MDHI of any change in the 3rd party or Nadcap approval.

Approvals remain in effect unless specific notice of removal is given by MDHI. MDHI reserves the right to perform periodic or performance based audit with reasonable notification.

Please let me know if you have any questions.
